

NCDEX DHANIYA SPECIAL REPORT

As we can see in the daily chart NCDEX Dhaniya is making "Head & Shoulder chart pattern" in Daily chart. Although patterns neck stands at 6100 but we have corrected its execution level below 6030 for the target of 5630/5030 level with sl above it's second shoulder at 6530 level. The only concern with this chart is that this agri-commodity is not getting enough volume, but we expect volume will increase in coming trading session as demand has increasing in local mandis.

RECOMMENDATION

SELL DHANIYA BELOW 6030 TGT 5630,5030 SL ABOVE 6530
